

Seneca County General Health District Environmental Health Sunny Farms Landfill Odor Report September 2019

The above graph shows the trend of odor complaints from June of 2018 to July of 2019. The decrease is the result of the landfill's compliance with the January 2019 Ohio Environmental Protection Agency's Interim Finding and Orders.

Between June 2018 and July 2019, the Seneca County General Health District has conducted **8** inspections of the landfill. Surveillance has increased with the addition of a Sanitarian-in-Training whose time is dedicated to doing inspections of the landfill and responding to citizens' complaints.

As of July 25, 2019 the Ohio EPA considered the landfill to be in substantial compliance.
